PROFESSIONAL SUMMARY :

I'm a final-year Computer Science student specializing in AI and Machine Learning, with hands-on experience building systems that make a real impact. One of my key projects is an AI-driven examination platform that empowers blind and visually impaired students to take exams independently. I work extensively with Python across data processing, database management, model deployment, and dashboard development—always aiming to turn complex problems into reliable, usable solutions. I'm looking for an opportunity where I can contribute immediately, build meaningful technology, and continue growing as a versatile, skillful engineer.

SKILLS SUMMARY:

- **Programming:** Python, SQL.
- **Data Analysis & Visualization:** Pandas, NumPy.
- **Databases:** PostgreSQL, MongoDB(Basic).
- **Backend Development:** FastAPI.
- **Dashboarding:** Streamlit.
- **Tools & Platforms:** Git, GitHub, Google Colab, Hugging Face Space.
- **Operating Systems:** Windows, Linux (Basic).

PROJECTS :

Blind People Online Examination System Using AI (Final Year - 2026) - <https://aivisionexam.vercel.app/>

- Integrated voice interaction, speech-to-text, and handwriting recognition to fully replace the human scribe role in examinations.
- Implemented ECAPA-TDNN Large speaker verification for biometric authentication ensuring exam integrity and preventing impersonation.
- Deployed the complete system on Hugging Face Spaces with a real-time voice verification API and AI-powered voice playback for an inclusive exam experience.

FLASH AI: Portable Offline LLM Assistant with RAG & Diagram Generation (Hosted on Github)

- **Local RAG Intelligence:** Processes and indexes PDFs or external documents directly on the pendrive, enabling fast, accurate, context-aware retrieval without internet.
- **On-Device Diagram Generation:** Creates Graphviz/Mermaid diagrams instantly using local compute, turning complex workflows into clear visual graphs offline.
- **One-Time Online Setup, Lifetime Offline Use:** Installs portable Python and required dependencies just once; afterward the entire AI stack runs fully offline from the USB drive.

VIRTUAL INTERNSHIPS:

- Complete Data Analytics Job Simulation — **Deloitte** via Forage Platform.
- Complete the GenAI Powered Data Analytics — **TATA** via Forage Platform

EDUCATION:

SETHU INSTITUTE OF TECHNOLOGY

2022 -2026

- B.E. CSE(Artificial Intelligence And Machine Learning)
- CGPA : 8.3 , GPA :8.6

ST.MARY'S HIGHER SECONDARY SCHOOL

2019-2022

- 12TH , 10TH PERCENTAGE : 77% , 76%

CERTIFICATE & ACHIEVEMENTS :

- AWS Managed Workflows for Apache Airflow (MWAA) — Cloud Data Workflow Fundamentals.
- SQL Problem Solving — HackerRank Certified.
- Second Prize — Technical Event, Mepco National Level Symposium
- Paper Presentation — Sathak Engineering College.
